**THE BRAND NEW CPD SEMINAR FROM LAMILUX**

Our CPD seminar “SPECIFYING COMPLIANT, SUSTAINABLE AND ENERGY-EFFICIENT ROOFLIGHTS AND GLASS ROOFS” provides a clear overview of considerations when specifying rooflights for your projects. The CPD covers insights including safety measures, codes of practice, benefits of introducing natural daylight and more.

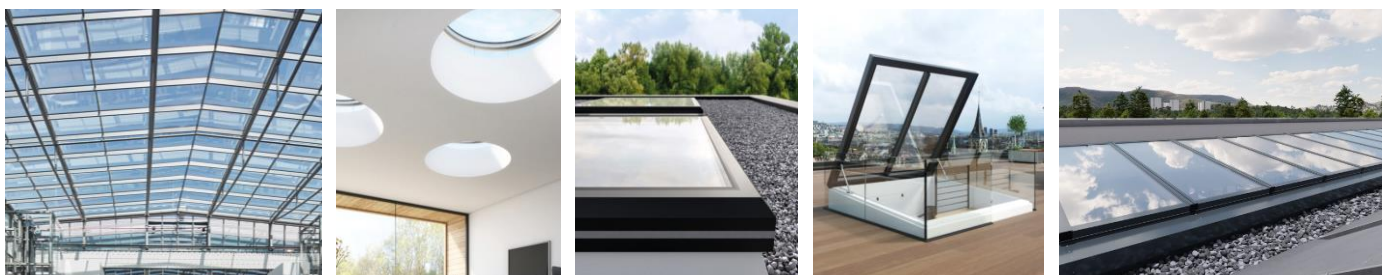

**The CPD lasts about 60 minutes and covers relevant subjects, meeting the following learning objectives:**

- Understand the benefits of designing buildings for natural daylight
- Understand relevant standards and regulations when specifying rooflights
- Understand how to and the importance of specifying non-fragile rooflighting solutions
- What is an EPD and what are the benefits of specifying a product with EPD verification
- Gain an understanding on thermal efficiency rooflight designs and the benefits of a thermally broken product
- Identify the importance of watertightness testing and the risks and problems of not choosing a certified rooflight
- Appreciate various interfaces and upstand options including insulated kerb base options and renovation projects using existing builders kerb
- Recognise various ventilation options and incorporating access within a rooflight

To book a face-to-face learning lunch CPD we will happily attend your offices to meet in person and present our CPD to your team. If preferred, we offer an online CPD virtually delivered on Microsoft Teams, or your preferred video conferencing platform, where we will present our live seminar in a way that suits your practice.

Not only will you be maintaining and developing your skills with this CPD seminar and Q&A session, you will also take advantage of LAMILUXs knowledge and experience as a “free” partner in your design & development team.

LAMILUX supply energy efficient flat roof skylights and atrium glass roofs. All LAMILUX products are manufactured in a way that the framework is thermally separated and insulated resulting in unrivalled air-tightness, water-tightness and acoustic performances.

To book your live CPD seminar please call 01284 749051, contact your area sales representative directly or email your contact details to [sales@lamiluxskylights.co.uk](mailto:sales@lamiluxskylights.co.uk).
